Attorney at Law.
Tucson, Arizona.

LOCAL MATTERS.

The Gila river is falling.

Court week is over, and the town is as quiet as though nothing had happened.

Mrs. Joe Godfrey went up on the steamer Mohave to meet her husband, Captain Joe, of the Columbia.

There is a rumor that John J. Crowe, of Phoenix, is going to visit his old home.

The SENTINEL Cabinet is under obligations to Mr. Hugh Harrison for a beautiful specimen of Copper bullion from the Bisbee Mines.

James Mighel, an old-time resident of Silver District, now of San Francisco, passed through Yuma on Sunday, bound for Tombstone.

J. J. Crowe, of Phoenix's District, was in town last week, and reported the Amelia mine flourishing, giving the boys plenty of rich ore in return for their labor.

The old placers near Ehrenberg, Weaver's District, are giving big returns of late. A large number of very coarse nuggets are being found by the lucky workers.

A Washington dispatch under date of March 18th, says: Among the confirmations by the Senate yesterday, was H. M. Van Arman, of California, to be Secretary of Arizona.

An unusual sight was seen on the river Friday morning, being a sail boat, with six sails set, going up the Colorado on a prospecting trip. The owner's name is Reynolds, and the SENTINEL wishes him bon voyage.

After date of March 13th the ticket rates on the Southern Pacific railroad from Yuma to Araby will be sixty cents, from Araby to Gilmory one dollar. Tucson to Walnut sixty-five cents, from Panguito to Walnut eighty cents.

The merchants of Yuma have decided to abolish the "bit" system. Hereafter articles the price when was a bit, will be sold at ten or fifteen cents, according to value, and the correct change given. This brings nickel coins into circulation.

The SENTINEL cabinet has received, through the kindness of W. A. Werninger, specimens of ore from the Gov. Party mine, near the Pot Hole. The new strike in this mine shows very high grade galena ore, carrying, it is said, over 500 ounces silver per ton, besides a paying quantity of gold.

The water tank at the penitentiary has been completed for some time. It has a capacity of 8,000 gallons of water. All the works are under the superintendence of Mr. David Neahr, who says that the amount of \$7,000, already drawn, is being utilized for the improvement of the prison.

A reporter of the SENTINEL met one of our solid citizens, Col. T—r, the other morning, and could not help noticing the smile of satisfaction which shone upon his face, as the evening sun does on the mountain tops. He inquired the cause. Answer: Just had one of those "Gadiva" cocktails at the Corner Saloon. Ye reporter "smiled."

Mr. and Mrs. H. D. Sanford, of Bridgewater, Mass., stopped in Yuma over Sunday last. They were en route to Riverside, Cal., where they go on account of Mr. Sanford's health. One reason for their stopping here was to enable Mrs. Sanford to make inquiries

about her brother, Mr. Horace E. Lindsey, a former resident of Yuma, who died here four or five years ago.

The Good Time.

The present promises to be a year of good times for the people of Arizona. The country is rich in minerals, and the mountains, and the fountain heads of all the streams are replenished. The prospector will not suffer from thirst in his search for veins of the precious metals during the approaching summer and he can search into places hitherto inaccessible from a lack of water, and the result will doubtless add many another paying mine to the long list that Arizona now boasts of.

The stock men too, will have cause to rejoice, for their herds will find abundant pasture upon every side. Both valley and mesa will yield prolific verdure, and the desert will literally blossom. The farmer will rejoice in the abundance of his crops and smile in anticipation of a plethora of ducats.

The welcome rain will make all glad, and through its agency will mountains and valleys and plains meet with bony life, and much good will result.

Skinny Men.

Wells' Health Renewer. Absolute cure for nervous debility and weakness of the generative functions. \$1, at druggists. Arizona. REDINGTON & CO., San Francisco, Cal.

Chair-Breaking Girls.

A Chicago father of several girls put fashionable thin-legged chairs in his parlor, and was annoyed by the frequency with which the frail furniture was broken. He asked the girls about it, and one of them said:

"I was sitting in the easy-chair by the fire, and Charlie—my brother—was sitting on the sofa by the window, when a lady came in, and she was sitting on it all. It must be the poor glue they use, or perhaps it was the frost."

The father studied the subject a few days, then he gave to each daughter a basket plaidly inscribed with her name and weight, and on each chair riveted a silver plate bearing the words, "Warning: to bear up—prudence." Calling in the girls, he said: "Now, if there's any more chairs broken, it is because your young men can't do a sum in simple subtraction, or else because they are bent on malicious mischief and destruction of property."

Buchupaiha.

New, quick, complete cure 4 days, urinary affections, smarting, frequent or difficult urination, kidney disease. \$1, at druggists. Arizona. depot, REDINGTON & CO., San Francisco, Cal.

No might or greatness in mortality can escape censure. Calumny the whitest of yirtrue strikes. What king so strong can't be the gab up in the slanderous tongue? Under it all Garfield was calm and strong and confident. He never lost his self-possession. He did no unwise act; he spoke no hasty or ill-considered word.—Extract from Mr. Blaine's eulogy.

Rough on Rats.

The thing desired found at last. Ask druggists for "Rough on Rats." It clears out rats, mice, roaches, flies, bed-bugs. 15 cent boxes.

TIN.

A communication in the Albuquerque Journal of recent date reports a strike of a ledge of tin ore near Crane Station on the Atlantic and Pacific Railroad. The geologist of the company has

located the ore and estimated the tin ore at 200,000 tons.

The tin ore is a very valuable metal, and no miner on the Pacific Coast (where gold, silver and copper abound) should turn up his nose at a tin mine. To aid those who may search for tin in this territory the following information may be of use.

The only ore that is wrought to obtain tin is the oxide (tinstone). It occurs most commonly in primary rocks, where it is found in association with quartz, mica, slate, clay slate, porphyry, and is usually associated with chlorite, iron pyrites, topaz, quartz, fluor, etc. The metal extracted from the ore taken from this situation is called black tin. It is also found in alluvium and drift, and the ore is called stream tin, from which the metal being extracted, becomes the grain tin of commerce. Its colors are brown, black, green, white, red and yellow. It occurs in crystals and in masses from the size of grains to that of the fist. In colors it is resinous or adamantine. Streak,

black. Gives sparks with steel. Brittle. Specific gravity from 6.7 to 7.

How To Secure Health.

It seems strange that anyone will suffer from the many derangements brought on by an impure condition of the blood, when SCOTT'S EMERALD AND STILLINGIA, or BLOOD AND LIVER SYRUP will restore perfect health to the physical organization. It is indeed a strengthening syrup, pleasant to take, and has proven itself to be the BEST BLOOD PURIFIER ever discovered, effectually curing Scrofula, Eczema, Erythema, Malacchia, and all morbid humors, and all diseases which are the result of impure blood, Liver, Kidneys, Stomach, Skin, etc. It corrects indigestion. A single bottle will prove to you its value as a health renewer, for it is LIKE A CHARM, especially when the complaint is of an exhaustive nature, having a tendency to lessen the natural vigor of the brain and nervous system.

The controversy now being carried in reference to the relations between Garfield and Rosecrans is disgraceful in the extreme. The bomb has closed over all that is mortal of Garfield and it is an insult to his memory to carry on the controversy. General Rosecrans, who really is given more prominence than his ability in any walk in life entitles him to, is entitled to no consideration from Garfield's friends. In the last Presidential campaign, as merely because he was a candidate on a ticket opposed that on which Garfield was a candidate he did not hesitate to denounce him as a thief and a briber-taker.

DR. ROGER'S VEGETABLE FORM SYRUP instantly destroys worms and removes the secretions which cause them.

A reporter on a Red Tape paper in "donag" a wedding reception, spoke of the bride thus: "Her dainty feet were encased in shoes that might have been taken for fairy boots." The next morning he tied up his wardrobe in a handkerchief and left for parts unknown when it appeared in print: "Her dirty feet were encased in shoes that might have been taken for fairy boots."

BAKER'S PAIN PANACEA cures pain in Man and Beast. For use externally and internally.

Washington, March 13th.—The report of the committee investigating the Treasury expenses is very voluminous and completely vindicates Secretary Sherman. The committee recommended certain safeguards against the illegal use of the Treasury Contingent Fund in the future.

England, March 13th.—The police have been notified that the Mayor by the appointment of others who are not police, amists in practice.

MISCELLANEOUS.

SWAYNES
FOR ALL SKIN DISEASES
